Preface	xi
Acknowledgements	xiii
1 Law and the Information Society	1
1.1 The Information Society . . . . .	1
1.1.1 The Network Society . . . . .	3
1.1.2 Social Reality, Data, Processes, and Legal Protection . . . . .	4
1.1.3 The Dynamics of the Information Society . . . . .	6
1.1.4 Big Data and Artificial Intelligence . . . . .	7
1.1.5 The Network Effect . . . . .	8
1.1.6 Network Effect and Monopolies . . . . .	10
1.1.7 Information Asymmetry and Other Trends in the IT Market . . . . .	11
1.2 Technologies, Society, and the Law . . . . .	13
1.2.1 Legal Informatics . . . . .	13
1.2.2 Digital Law . . . . .	18
1.3 A New Mission for the Law . . . . .	20
<b>I Legal Informatics</b>	<b>23</b>
2 Computers	25
2.1 Computers: Machines for Processing Information . . . . .	25
2.1.1 Hardware and Software . . . . .	25
2.1.2 The Precursors of Computers . . . . .	26
2.1.3 Programmable Machines . . . . .	26
2.1.4 Alan Turing and the Universal Turing Machine . . . . .	28
2.1.5 The Von Neumann Architecture . . . . .	30
2.1.6 Moore's Laws . . . . .	31
2.2 The Personal Computer (PC) and Networks . . . . .	33
2.2.1 Interaction by Means of a Computer Network . . . . .	33

2.2.2	Man-Machine-Environment Interaction . . . . .	35
2.2.3	Client-Server and Peer-to-Peer . . . . .	36
2.2.4	Cloud Computing . . . . .	38
2.3	Computers as Digital Programmable Machines . . . . .	40
2.3.1	Analogical and Digital Representations . . . . .	40
2.3.2	The Binary System . . . . .	42
2.3.3	Boolean Algebra and Computers . . . . .	44
3	The Code: Algorithms and Programs . . . . .	49
3.1	Code as Law . . . . .	49
3.2	Programs and Algorithms: Introduction . . . . .	52
3.2.1	Algorithms: Examples and Errors . . . . .	55
3.2.2	Algorithm: a more complete definition . . . . .	58
3.2.3	The Correctness of an Algorithm . . . . .	59
3.2.4	Efficiency and Computational Complexity . . . . .	61
3.3	From Algorithms to Programming Languages . . . . .	61
3.3.1	From Machine Language to Assembler . . . . .	62
3.3.2	High-Level Languages Compared to Machine Language . . . . .	62
3.3.3	From Source Code to Object Code: Interpretation . . . . .	63
3.3.4	From Source Code to Object Code: Compilation . . . . .	64
4	Computers and Data . . . . .	67
4.1	Data and Conceptualisation . . . . .	67
4.1.1	The Semiotic Triangle . . . . .	67
4.1.2	Classes, Instances, Attributes, Relationships . . . . .	68
4.2	Files and File Formats . . . . .	70
4.3	Databases and Information Retrieval Systems . . . . .	73
4.3.1	Queries and Performance of Information Retrieval . . . . .	74
4.4	Markup Languages . . . . .	77
4.4.1	HTML language . . . . .	79
4.4.2	XML . . . . .	80
4.4.3	DTD and XML Standards . . . . .	81
4.5	Legal Ontologies . . . . .	85
4.6	Cryptography . . . . .	90
4.6.1	Symmetric and Asymmetric Cryptographic Systems . . . . .	90
4.7	Digital Signature . . . . .	91
4.7.1	Digital Signature: the Process . . . . .	92
4.8	Electronic Signatures in EU and Italian Law . . . . .	94
4.8.1	Advanced electronic signature and qualified electronic signature . . . . .	94
4.8.2	The Digital Signature in the Italian Law . . . . .	94

---

4.9	Cryptography and Blockchain . . . . .	95
4.10	Big Data . . . . .	95
4.11	Algorithmic Decision-Making . . . . .	98
4.12	Legal Challenges of Data Mining and Algorithmic Decision-Making . .	100
5	Internet . . . . .	103
5.1	Introduction to Internet . . . . .	103
5.1.1	Origins and Architecture of Internet . . . . .	104
5.1.2	Internet Layers and Protocol Stack . . . . .	107
5.1.3	Net-Neutrality . . . . .	109
5.2	Internet Standards . . . . .	110
5.3	IP Address . . . . .	111
5.4	Domain Names and DNS . . . . .	112
5.5	Identification on the Internet . . . . .	114
5.5.1	Server Logs . . . . .	114
5.5.2	Identification: Cookies . . . . .	116
5.6	The WWW (World Wide Web) . . . . .	118
5.7	Internet Governance . . . . .	120
5.8	Semantic Web and the Law . . . . .	122
6	Artificial Intelligence and Law . . . . .	125
6.1	Artificial Intelligence . . . . .	125
6.2	Contributions to Artificial Intelligence . . . . .	128
6.3	Strong AI and Weak AI . . . . .	129
6.3.1	Alan Turing and the Turing Test . . . . .	130
6.3.2	John Searle and the Chinese Room . . . . .	130
6.4	AI: main technological approaches . . . . .	133
6.5	Knowledge-Based Systems . . . . .	134
6.5.1	Automated Reasoning and Application of Rules . . . . .	135
6.5.2	Rule-Based Systems for the Legal Domain . . . . .	136
6.5.3	Legal Knowledge Representation . . . . .	138
6.5.4	An Example of Legal Rule-Based System: Oracle Policy Au- tomation . . . . .	142
6.5.5	From Rules to Argumentation-Based Systems . . . . .	143
6.5.6	Agent-based Systems . . . . .	145
6.6	Machine-Learning systems . . . . .	146
6.6.1	Machine Learning Approaches . . . . .	148
6.6.2	Machine Learning Technologies . . . . .	149
6.6.3	Decision Trees . . . . .	149
6.6.4	Neural Networks . . . . .	150

6.6.5	Generative AI and Large Language Models . . . . .	154
6.6.6	Machine Learning in the legal domain . . . . .	156

## **II Digital Law 159**

7	Privacy and the General Data Protection Regulation	161
7.1	The Rights to Privacy and Data Protection . . . . .	161
7.2	The General Data Protection Regulation . . . . .	163
7.2.1	The Notion of “Personal Data” . . . . .	163
7.2.2	Data Controllers and Data Processors . . . . .	164
7.2.3	The Territorial Scope . . . . .	165
7.3	Data Processing Principles . . . . .	166
7.4	Legal Bases for Data Processing . . . . .	166
7.4.1	Consent and its Limits . . . . .	167
7.5	Data Subject’s Rights . . . . .	169
7.5.1	The Right to be Forgotten . . . . .	170
7.5.2	The Right Not to be Subject to Automated Decision-Making . .	171
7.6	Data Controllers’ Responsibility and Obligations . . . . .	172
7.6.1	Safety Measures and Data Breach . . . . .	173
7.6.2	Data Protection Impact Assessment . . . . .	174
7.6.3	Data Protection Officer . . . . .	174
7.7	Monitoring and Enforcement . . . . .	175
8	Intellectual Property	177
8.1	Intellectual Property in the Digital space . . . . .	177
8.2	Software as an Economic Good . . . . .	177
8.3	The Proprietary Model of Software Protection . . . . .	178
8.4	Copyright Protection in the Italian Legal System . . . . .	179
8.4.1	Economic Rights . . . . .	181
8.4.2	Types of Protected Works . . . . .	181
8.5	Software Protection . . . . .	182
8.5.1	Object of the Protection . . . . .	182
8.5.2	Exclusive Rights . . . . .	183
8.5.3	Civil and Criminal Sanctions . . . . .	183
8.5.4	Exceptions and Decompilation . . . . .	185
8.5.5	Justification of, and Issues with, the Proprietary Model . . . . .	186
8.6	Free Software and Open Source Models . . . . .	188
8.6.1	GPL License and Copyleft . . . . .	188
8.6.2	Issues with the Free Software / Open Source Software Model .	190
8.6.3	Development of Free Software / Open Source Software . . . . .	190

8.7	Copyright and Generative Artificial Intelligence . . . . .	191
8.8	Peer Production . . . . .	192
8.8.1	Creative Commons . . . . .	193
8.9	Patent protection . . . . .	195
9	The Law of Internet Intermediaries . . . . .	199
9.1	Internet Intermediaries . . . . .	199
9.1.1	Economic aspects . . . . .	200
9.1.2	Socio-technical aspects . . . . .	201
9.2	Internet Intermediaries and the Law . . . . .	203
9.3	Internet Intermediaries and Digital Services Act . . . . .	205
9.3.1	The E-Commerce Directive . . . . .	206
9.3.2	Towards Regulation of Content Moderation . . . . .	207
9.3.3	The Digital Services Act . . . . .	209
9.4	Internet Intermediaries and Digital Market Act . . . . .	216
9.4.1	Competition Law and Digital Platforms . . . . .	217
9.4.2	The Platform-to-Business Regulation . . . . .	219
9.4.3	The Digital Markets Act . . . . .	220
10	The Regulation of Artificial Intelligence in the EU: the AI Act . . . . .	227
10.1	Artificial Intelligence Between Ethics and Law . . . . .	227
10.2	The AI Act and the Risk-based Approach . . . . .	228
10.3	Definition of Artificial Intelligence . . . . .	230
10.4	Prohibited practices . . . . .	231
10.5	High-Risk Systems . . . . .	232
10.5.1	Classification . . . . .	232
10.5.2	Essential Requirements . . . . .	234
10.5.3	The Conformity Assessment Procedure . . . . .	235
10.5.4	The Fundamental Right Impact Assessment . . . . .	236
10.6	Low-Risk Systems . . . . .	237
10.7	The Regulation of General AI Models . . . . .	237
10.8	Enforcement and Sanctions . . . . .	238
11	Automation and Liability . . . . .	241
11.1	Introduction . . . . .	241
11.2	Automation and Socio-Technical Systems . . . . .	243
11.3	Task-Responsibilities and the Impact of Automation . . . . .	244
11.4	Actor-Based Analysis of Liability . . . . .	246
11.4.1	Liability of Individuals . . . . .	247
11.4.2	Liability of Enterprises . . . . .	248
11.5	Levels of Automation and Allocation of Liability . . . . .	250

11.6 AI and liability: new EU rules and proposals . . . . .	252
11.6.1 The revised Product Liability Directive proposal . . . . .	253
11.6.2 The AI Liability Directive proposal . . . . .	254
